SUBJECT: Letter of Clarification No. 3
Bulk E-mail - Mass Mailer Application

REFERENCE: RFP No.: S17-T25555

TO: All Prospective Respondents

This Letter of Clarification is issued for the following reasons:

1. To extend the proposal due date to October 29, 2015 and replace pages 1 and 4 in their entirety with the attached pages marked "Revised, October 22, 2015".

**SOLICITATION DUE
DATE/TIME:**

Thursday, ~~October 23~~ October 29, 2015 at 2:00 P.M., CST

When issued, Letter(s) of Clarification shall automatically become a part of the solicitation documents and shall supersede any previous specification(s) and/or provision(s) in conflict with the Letter(s) of Clarification. All revisions, responses, and answers incorporated into the Letter(s) of Clarification are collaboratively from both the Strategic Procurement Division and the applicable City Department(s). It is the responsibility of the respondent to ensure that it has obtained all such letter(s). By submitting a proposal on this project, respondents shall be deemed to have received all Letter(s) of Clarification and to have incorporated them into their proposals.

If you have any questions or if further clarification is needed regarding this solicitation, please contact me.

Sincerely,

A handwritten signature in black ink that reads "Murdock Smith III".

Murdock Smith
Senior Procurement Specialist
Strategic Purchasing Division
832-393-8733

MWBE Goal: 11%

Carolyn Hanahan, Chief Procurement Officer

September 18, 2015

Date

“Revised, October 23, 2015”.

PART I – GENERAL INFORMATION

A. General Information

The City of Houston (“City”) intends to replace its current mass mailer application “CitizensNet” eNewsletter website with a robust and scalable solution that supports reliable and timely mass e-mail distribution delivery to a minimum of 150 thousand up to 2 million users. The solution will automatically integrate with the current social media platforms utilized by the city while remaining mobile and smart phone friendly.

B. City of Houston Background

The City of Houston is the fourth largest City in the United States comprising 23 departments with multiple locations throughout the City. The City has approximately 23,000 employees with approximately 500 employees involved in the procurement and/or contracting process. Contracts where the City must pay in excess of \$50,000 are routed to City Council for approval. The annual volume of contracts and purchase orders issued in the City in the last five years has ranged from 19,000 to 23,000.

As a point of reference, prospective proposers may refer to the City’s Procurement Manual and corresponding Purchasing Manual (currently under revision) for current processes. The manuals can be accessed at <http://purchasing.houstontx.gov/docs/SPD%20Procurement%20Manual.pdf> and <http://purchasing.houstontx.gov/docs/Procurement Manual.pdf>. The City is looking for additional opportunities to streamline its processes through the implementation of technology.

C. Schedule [DESCRIBE TIMELINE]

Notification of Intent to Award (<i>Estimated</i>)	November 20, 2015
Council Agenda Date (<i>Estimated</i>)	December 2, 2015
Contract Start Date (<i>Estimated</i>)	December 9, 2016

PART II – SCOPE OF WORK/TECHNICAL SPECIFICATIONS

A. Purpose

- 1.0 City of Houston citizens utilize the current CitizensNet website to register and receive periodic e-mails concerning important City issues of interest to them and their neighborhood. Due to the current system’s limitations, there is increased likelihood that the City of Houston will appear on the “blacklist” of major e-mail providers for delivering an unacceptable level of spam e-mail. Furthermore, the current system has limited functionality for tracking metrics, archiving and pre-programmed templates.

The City of Houston also seeks to improve the integration between CitizensNet and existing/future emergency mass notification systems to provide a single registration portal for emergency and non-emergency alerts. Currently, City of Houston residents must register on multiple platforms to receive both sets of messages.
